Climate Hub**

## WHAT CAN YOU DO ABOUT CLIMATE CHANGE?

We've all heard about Climate Change and we're seeing its effects across our planet. A healthy planet is fundamental to our lives.

It might seem like a challenge that's too big to overcome but, if everyone in our communities plays their part, we can make a change. All over Derby, everyday people are doing their part to tackle climate change. They're not politicians or activists, just people who live life with the planet in mind.

Find out what actions you can take on the Everybody's Talking About Climate Change website: [everybodys-talking.org](https://everybodys-talking.org)

## COP26

COP26 is the 26th UN Climate Change Conference. It brings together world leaders to tackle Climate change. The UK is hosting COP26 in Glasgow this November. The UK is aiming to secure a global plan to reduce greenhouse gas emissions, such as from cars and factories.

Find out more about COP26 by visiting [ukcop26.org](https://ukcop26.org)

## WHAT'S HAPPENING IN DERBY?

Derby's goal is to be Zero Carbon by 2035. To help achieve this, Derby City Council, in partnership with the University of Derby set up a Climate Change Commission to bring together groups and individuals from across the city to work together on projects to reduce carbon emissions.

There are four action hubs focusing on the following key areas:

- Business
- Community
- Housing
- Transport

You can find out more and get involved by visiting: [derbyclimatehub.org.uk](https://derbyclimatehub.org.uk)
